

VITALON

MONOFILAMENT POLYAMIDE BLACK

SYNTHETIC NON-ABSORBABLE SURGICAL SUTURE U.S.P.

These Polyamide suture fibres are tough, possessing high tensile strength as well as elasticity and lustre. They are wrinkle-free and highly resistant to abrasion and chemicals such as acids and alkalis.

COMPOSITION Polyamide

COLOUR Black

TYPE OF MATERIAL Synthetic Monofilament

METHOD OF STERILISATION 100% Ethylene Oxide

SIZES AVAILABLE 1 to 5-0 (Non-needed sutures available in size 2 to 2-0)

BENEFITS OF VITALON

- Being a monofilament suture, it doesn't support bacterial growth and neither is it affected by blood, nor weakened by tissue enzymes, ensuring easy tissue glide.
- Ideal for skin closure due to its excellent handling and secure knotting.

VITALON is best suited for Casualties, Orthopaedic Surgeries and General Surgeries.
